

THE LITTLE STARS SR. SEC. SCHOOL, DIGBOI

CONSENT FORM

SESSION : 2021-2022

Some pointers to keep in mind while choosing the subjects combinations : -

- Know your interest and aptitude. Co-curricular activities and inputs from friends and family can be valuable in this regard.
- Must have a career plan.
- Think it through yourself; what is good for your friend may not good for you.
- Explore career options and discover new opportunities that may excite you (this process should indeed continue within the broad field throughout the two years of +2 studies.)
- Be realistic and honest with yourself. No one knows you better than you do. If you know for instance, that you do not have a '**Math-Brain**', do not fool yourself into taking Science.
- Pay heed to the advice from parents and other adults who know you closely. Their experience can often give you valuable insights into yourself.

Lastly, it is important that you think through before taking this decision. Do not take it in haste or feel pressured in any way whatsoever.

All the Teachers of Sr. Secondary sections of this school are ready to help you in choosing the subject combinations.

Know the subject combinations offered in the school at the +2 level. The streams available in the schools and the subjects offered therein are:

1. Science (Medical):-

Main subjects — English, Physics, Chemistry, Biology

Optional subjects — Physical Education

2. Science (Non-Medical):-
